STANDARD GUARANTEE OF AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals catalogued have been tested for T. B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs Vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

His sire was purchased for \$5100 at Perth and used successfully in the Moy herd before being sold for a high figure for export. His dam was second prize winner at Perth in 1956 and is a stylish, short-legged cow. Calrossie Indomitable was one of Calrossie Highland Pride's best sons--sold to South Africa for a record 5000 pounds.

1956 International Grand Champion Steer over all Breeds

P.S. TROUBADOR, fitted and shown by Pennsylvania State University, was made Grand Champion over all breeds at the 1956 International, in one of the strongest steer shows in the history of the Exposition. He was bred by Cyrus S. Eaton, Acadia Farms, Northfield, Ohio and purchased in dam by the Pennsylvania State University. He weighed 990 pounds and sold for \$20.50 per pound to the Greenbriar Hotel, White Sulphur Springs, W. Va. - and established an all-time record price for the Grand Champion at the International. The superior beef making-ability of Shorthorns was again emphasized in the steer classes at the International. The steers shown were a fitting testimonial to the breed's claim to greater weight for age and showed the tremendous progress made in eliminating coarseness and wastefulness.

Shorthorns

On many of the grade A farms of America Shorthorns and Polled Shorthorns dominate the scene as they do in this picture. As the most efficient of all utilizers of farm feeds Shorthorns symbolize animal agriculture at its best. These deep, thick, Shorthorns are the kind farmers and ranchers of America need to market most profitably the forage crops and grasses produced.

LYNNWOOD PRINCESS 4TH x - Cooper Farms have one-half interest in her sire - for which they paid \$5,000. He was Grand Champion at Houston, Texas in horned competition. Her dam never stood lower than third in the two years she was shown and has been a great brood cow. She is also the dam of the roan heifer that stood second to Lynnwood Daybreak A. 8th in just about every show in the 1956-1957 circuit. She is also the dam of Lynnwood Agent, a top show bull in our herd. This calf gives every promise of being even better than her half-sisters and brothers.
